First Light ...a planned Christian weekday program where children (babies through kindergarten) can have their **First** experiences of Jesus Christ, the **Light** of the World, as they build a solid spiritual and educational foundation.

Philosophy

At First Light, we desire to provide a safe and loving atmosphere of fun and excitement while learning – where the child’s environment is stimulated at each age level to explore, discover and experience success socially, emotionally, physically, academically and spiritually.

We believe in a “building block” teaching strategy where each age level is built on the prior age level. Therefore, from babies through kindergarten, your child will receive a solid step-by-step foundation. We teach the “whole” child and lovingly develop a strong foundation to prepare each child for kindergarten/first grade.

Goals

- Realizing all children learn on different levels, our primary goals are:
1. To provide a hands-on learning environment where the child develops age-appropriate social skills and experiences success, thus promoting happiness and self-confidence.
 2. To provide a strong curriculum that inspires a desire and excitement to learn and also spurs creativity.
 3. To provide a spiritual foundation through sharing, songs and teaching about God, Jesus, and the Bible.
 4. To show Christian love and accept each child as a unique individual.

Curriculum – **NEW AND IMPROVED!**

We have completely “overhauled” our curriculum at First Light! We now provide an enriched developmental program at each age level that is both biblically based as well as academically challenging to ensure success at each “building block” stage of learning. Whether in our babies program, kindergarten, or somewhere in between, your child will be ready for the next level! All areas of teaching are covered: language development, math, science, social studies, art, music and movement.

Wee Learn, published by LifeWay Christian Resources, is our biblically based curriculum for all ages. It is composed of thematic units and incorporates learning concepts and skills through play and academics. Saxon curriculum is also used for our four- year- old and kindergarten classes. Other materials and curricula are used to enhance and supplement such as, “Your Baby Can Read,” and others.

Faculty

Our staff consists of fully trained and experienced Christian teachers and assistants. They attend several teacher workshops and seminars throughout the year to enhance their own educational development. Each class has a teacher and a teacher assistant that genuinely loves and cares for the children with a strong desire for quality teaching.

Registration Requirements (Babies – Kindergarten)

- Complete and return registration form
- Turn in registration fee
- Complete First Baptist Medical Release Form*
- Turn in State Immunization Form 3231* (from your health care provider)
- Turn in Supply and Activity Fee*

*Due before first day of school
